## IFAG

### Family integration and group agreements

El Colegio de la Santisima Trinidad, projecting its action plan for continuous improvement in its educational quality processes, has planned for the beginning of this year a meeting with the families and students of each of the groups.

Allowing the Parents get to know each other, identifying the families of their children's friends, so that in an environment of closeness and trust it can be established to energize this year's work. Having clear the pedagogical dynamics of the School, to ensure that unity of criteria family-school, will allow the teams to achieve more significant results.

### WOULD YOU LIKE TO BE ON THE SCHOOL NEWSPAPER?

Do something astonishing, create a new project, pass with flying colors, do something about recycling, come up with a new prayer, help your classmates among other good activities, and you will have the chance to be on the front page of the school newspaper.

We gathered around the altar as an educational community, to offer our group commitments for this year. Before God, we set our goals to achieve and also before Him we committed ourselves to be a team in our actions, as fraternity inspired by Francis and Mother Caridad Brader
